## **INVITATION TO BID 06.1730.25-LED**

**ITS Communication Infrastructure-Corridor 5, Craig Road,  
US 95 to Decatur and Charleston Striping Project**

**SCOPE OF WORK:** The Intelligence Transportation System (ITS) Communication Infrastructure work generally involves the installation and construction of Automatic Traffic Recovery (ATR) Station, loop detectors and fiber optic communications along Craig Road from Tenaya Way to Decatur Boulevard. The improvements primarily consist of equipment installation on new foundations, fiber optic conduit at various locations, installation of fiber optic communication cable in new and existing conduit, associated equipment to convert existing traffic signal controllers to digital technology and all associated work. All work is to be coordinated with the City of North Las Vegas' Arterial Incident and Event Management System (AIEMS) Project under construction concurrent with this work.

The Charleston Boulevard portion of the project shall consist of removing the existing Bike Lanes from Antelope Way to Indigo Drive and installing striping that will provide for a third lane in each direction. The portion of the project at the intersection of Charleston Boulevard and Buffalo Drive will be done in two phases. The first phase will remove the existing Bike Lane and install painted lane lines for approximately 700 feet on either side of the intersection On Charleston Boulevard until weather permits a microsurfacing application (see Special Provision 408 NDOT). The second phase will include that microsurfacing application and the installation of permanent lane markings

**The location of this project is Corridor 5, Craig Road, US 95 to Decatur and Charleston**

The estimated monetary range: \$1,250,000.00 to \$1,500,000.00.
